THE CHANCES OF DISAPPEARANCE OF AEROPLANES

Concerning the disappeared [Malaysian] aeroplane, we, the Promoters of Superscience who have been in tremendous research on the space and the evolution of the universe [from Infinity to the Big universe totally still as the only Vacuum universe and the elliptical Matter universe] have had the real research into the subject on the aliens in many different planets. From among them, some of the aliens should have snatched away the lost aeroplane with the human beings in it into another planet or to some corner of the space for their superior scientific experiments, and there is the possibility for this to be continuing in the coming days.

For instance, during May, 2001, in Delhi there appeared a group of aliens who were nicknamed as 'monkeyman' by the common people, where really it was the arrival of aliens on the earth for experiments, while Delhiites got afraid that they were disturbed by them, while really the aliens had the ambition of experiments.

Whereas with vast zoological knowledge and with vast force, the scientists could not solve the mystery, and the administration could not catch or trace anything to make scientific invention, the aliens left as such without being snatched.

But during that time of confusion and chaos, we confirmed and proclaimed that they are aliens from other planets doing their experiments, and our proclamation was reported by many newspapers.

We, the Promoters of Superscience are a school of thinkers tutored and guided by the Man of the East and have been engaged in deep research for the last 23 years concerning the unsolved mysteries of the universe, space and mankind and have the solutions to these kinds of problems of the mankind.

Notes in detail

In the already published book, "*The Aliens as the Alien Beings throughout the universe*" written by the Man of the East, are described the life pattern, the permanent life system and the Psychology of the aliens in other planets, all of whom have the power for the interplanetary journey occasionally in their allotted time.

Further in his published book "*Astrophysics differently... and the Astrophysical Lives*," he describes the evolution of the universe from the Infinity to the enormously Big circular Vacuum universe in 14 fold area, to the Small circular universe which is with Time Energy for the pre-nuclear stage and Voice Energy further with Higher Nuclear Energy for the nuclear stage, and only further there is the Matter universe, for which there was the Intervening creation that happened at the very end of the Evolutionary creation. All these are described in the book on Astrophysics differently and the Astrophysical Lives.
