Respected sir/madam

The disappearance of the aeroplane is the first step of the Aliens' making relationship with the mankind on the earth.

For your kind awareness, surely some kind of attractive force above attracted and deviated that missing aeroplane from the normal course and from being under the limitation of the systems and devices set-up by mankind, where all the passengers fell into the coma state. So no one in the plane including the pilots and crew could either give any message or make any telephone calls. Sir, whether you accept it or not, this is the fact.

The Aliens used to descend down to the earth and ascend up from the earth till 4500 years ago and some of them were able to stay on the earth. Some of them used swift and very speedy aerial vehicles of interplanetary journey. Some others could travel without such aerial vehicles and travelled with some other means. Bodily life without the covering biological life enabled them for higher scientific actions and aerial, marine and terrestrial journeys, which might just be a miracle or a riddle or superstition for the mankind, in the same manner as, a few centuries back, the present travelling in fast-moving vehicles and aeroplanes was only a riddle for the mankind. Still this type of travels of the present mankind is a wonder and a miracle for the aborigines in deep forests.

With our great limitation in science when compared with the superior scientific aspects and dealings of the Aliens by making the interplanetary link as their basic aspect, let the limited mankind not please underestimate the ability of the Aliens.

We cannot but say the reality that the Aliens have once again started to make the interplanetary link with the planet earth, and the disappearance of the aeroplane is the first step of their making relationship with the mankind on the earth. If the scientific realm does not agree with this, this kind of their intervention and action will continue further until the mankind approves the Aliens and their arrival on the earth, with the willingness of the mankind to moderate and change the present science and Mathematics in accordance with the Aliens' superior science, Universal Mathematics and their multi-crore calculations. Moreover, the mankind is bound to adopt the technology of their interplanetary vehicles with the adoption of their system of swift interplanetary journeys because their superior science and Mathematics is based on Space and Time.

The Aliens are not dealing with an uncivilized mankind, rather with a civilized mankind. So from when man stepped his foot on the Moon, it made way for the Aliens to make link with mankind who are with such thirst and hunger for going to other planets. So surely

P.T.O

before people occupy the Mars, the Aliens want to show their superiority and upper hand in that aspect. So Aliens will act rapidly, which may be a wonder for the mankind who are still in the limitation in science in front of superior science of the Aliens. While we are only with sound waves and electro-magnetic waves, the Aliens are further with the waves of ideas, the waves of ideologies and the waves of knowledge, which pass through the total universe.

Sir, for your awareness, decades and many years ago we could declare to the world that the Aliens would start to make relationship with the earth as the part of their establishing interplanetary link.

The quotations from the different books written by the Man of the East concerning the Aliens

In as early as year 2000 in our book named **A message to the Seven Religions of Asia** on page 48 the fourth point under the heading 'View of the Global Government' reads:

Universal view by establishing inter-planetary link, inter-planetary communications, and inter-planetary journey by making relationship with the other rational-Beings (the rational beings like mankind) in distant planets

Again, our book **The Aliens** published in December 2012 is completely on the various aspects of the aliens and the following are some of the chapter headings of the book.

1. *...the Aliens are in five types.*
2. *Aliens were once on the earth.*
3. *Aliens are basically superanimals out of the Cosmic life (Product life) and not of the atmospheric life (By-product life).*
4. *The Product life of the Aliens in the universe etc etc.,*

In a paper on the reasons for the continuous disastrous events, among the most advanced scientific inventions enumerated by us the 8th and 9th points read as follows:

8. *Tapping the waves of ideologies that are passing throughout the entire universe, and thus collecting the information of the inhabitants of distant planets who are of rational power, intellect and intelligence more than the mankind who are with the present science and present Mathematics,*
9. *Quick and short-cut to and fro journeys between the Aliens and the mankind, either by availing ourselves of their vehicles by their grace or by our making the replica of their vehicles of very quick and short-cut journeys etc.,*

Expecting your early response, thank you

Yours sincerely
