

THE ONLY REMEDY

Through our willingness to make interplanetary link with the Aliens by our submissiveness to adopt their Universal Mathematics for Space and Time as our Mathematics hereafter, it should be our first step (If their first step is snatching away the aeroplane for the mankind to be submissive to their science, by making our science to be failed before their scientific actions) of making interplanetary link with the Aliens. So except counting or numbering of any objects, then surely we should moderate our Mathematics in accordance with their Universal Mathematics which is with new 0 value and new calculations. For them the left-side 0 is valuable as $0 \text{ to } 9 = 10$ for the Aliens.

NB. Surely the Aliens will fight against the mankind, if they try to conquer the Space and different planets, like now our planning to inhabit the Mars without making interplanetary link and relation with the Aliens who are with many superior scientific careers. So hereafter the Aliens will make wonders both in the Space and on the earth like the present disappearance of the aeroplane.

Aliens' Mathematics based on Space and Time

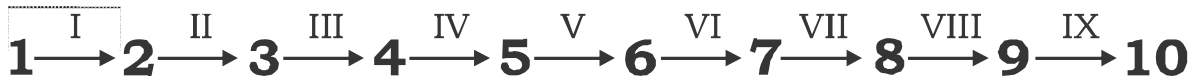

with which they see afar off and have dominion and swift journey in the Space

[Except in counting, the Mathematics of the Aliens is different from that of the mankind. The Aliens have an Additional 1 value at the left side of the marking of 1, with the simple fractions in it which is logical. Further, there is the Other 1 from the marking of 1.]

Left-side 0 is valuable for Space and Time.

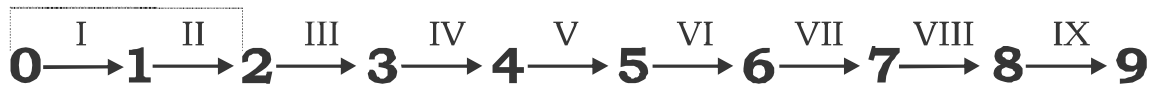

10 digits for Aliens in link with Space and Time

Figure 1

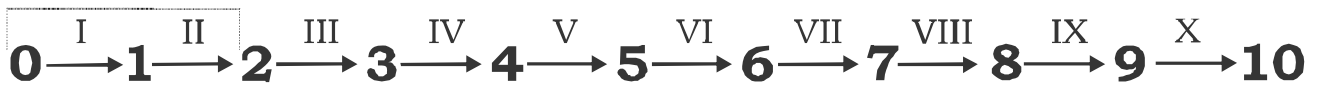

Here till 10 there are 10 numbers with IX gap values.

Figure 2

But here till 9 there are the same 10 numbers with IX gap values.

Figure 3

On the other hand, here till 10 there are 11 numbers with X gap values

1. **Left-side 0 makes to increase both measurement values and gap values** more than the counting values.
2. **Measurement of space and time starts from 0** as the valuable left-side 0.
Here there are two gap values till the fullness of 1 as seen in *Figure 2* and *Figure 3*.

Again, here **the first gap value alone is Digit 01**, that is, till the beginning of 1 as the abstract **Digit 01**. This abstract Digit 01 starts from 0 and ends at the beginning of 1.

Further, here **the second gap value** [after the first gap value] is the **Other 1**, that is till the fullness of 1; so the Other 1 starts from the beginning of 1 and ends at the fullness of 1, where the Digit 2 starts with its value still at the right side of the marking of 2.

Both these gap values together is the Digit 1 as **01 + Other 1 = Digit 1**, where the first gap value alone is 01, as Digit 1 – Other 1 = 01, as the abstract digit in the measurement of space and time [01 is not seen only in counting].

3. The left-side valuable 0 adds one more digit with the present nine digits as:
01, 1, 2, 3, 4, 5, 6, 7, 8 and 9, totally **as 10 digits in link with space and time.**

–0 denotes the vanished Infinity which was the real nothingness.

$\frac{0}{0}$ denotes the Big universe in 14 fold area (*the still-remaining only Vacuum universe*).

+0 denotes the beginning point of the Small universe in $\frac{1}{14}$ area.

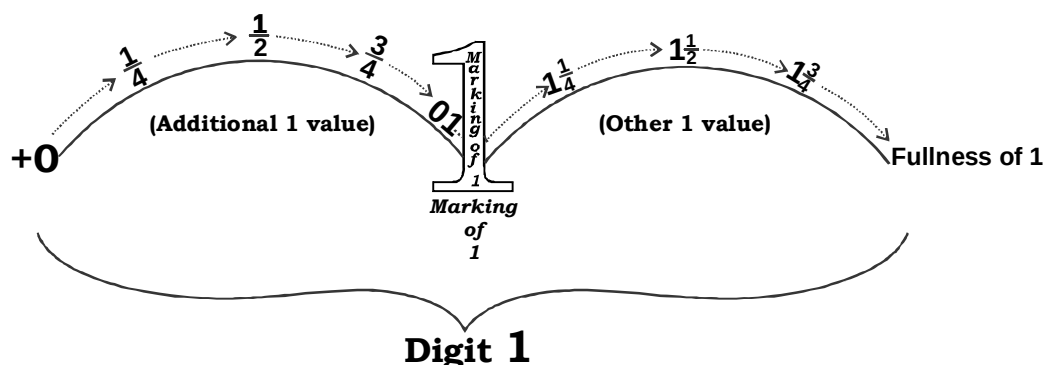

Digit 1 stands for the Physical universe of matter in nine steps.

NEW VALUE FOR DIGIT 1

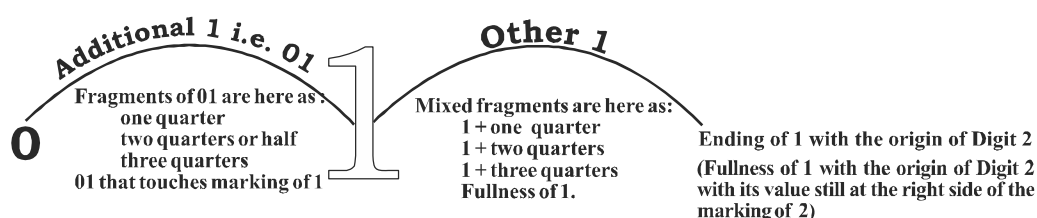

Digit 1 has two divisions as two 1^s in it with nine fragments.

+0 ; $\frac{1}{4}$; $\frac{1}{2}$; $\frac{3}{4}$; 01 at the marking of 1 ; $1\frac{1}{4}$; $1\frac{1}{2}$; $1\frac{3}{4}$; Fullness of 1

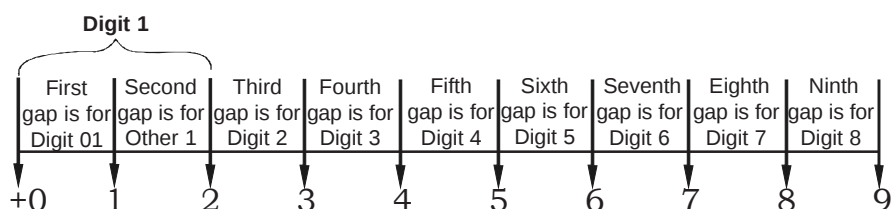

↓ ↓ ↓ ↓
Common One quarter Half Three quarters
beginning part of 01 part of 01 part of 01

Digit 1 is the unique digit which alone has two values, as the left-side value **01** as the **Additional 1** and the right-side value the **Other 1**. **01** starts from 0 and ends in the marking of 1 with the fragments of 01 as $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, till **01** that touches the marking of 1. The **Other 1** starts from the marking of 1 and ends in the fullness of 1 with the fragments of $1\frac{1}{4}$, $1\frac{1}{2}$, $1\frac{3}{4}$, till the fullness of 1. These two 1 values (in **Digit 1**) are together the reason for the origin of Digit 2.

Digit 1 is the root or stem for all the digits and numbers.

All the Digits are only gap values.

Digit 01 represents the totality of the first gap value from 0 to the marking of 1.

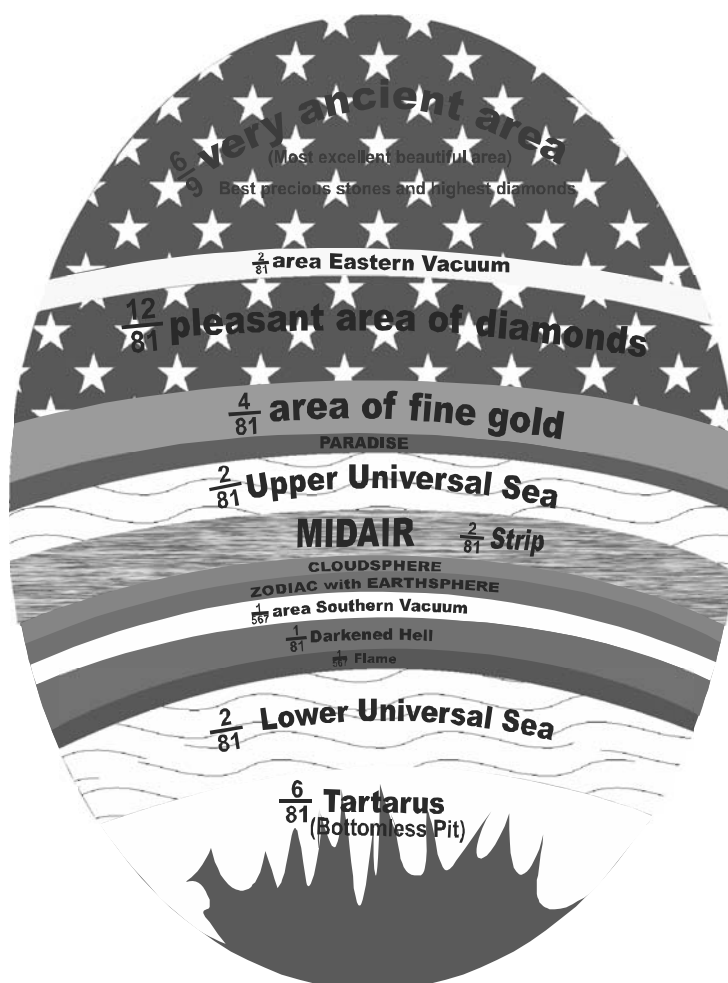

Other 1 represents the totality of the second gap value from the marking of 1 to the fullness of 1 (that is, in the marking of 2).

Digit 2 represents the totality of the third gap value from the marking of 2 to the fullness of 2 (that is, in the marking of 3).

Digit 3 represents the totality of the fourth gap value from the marking of 3 to the fullness of 3 (that is, in the marking of 4), and so on.

This Space and Time calculation is very essential for the space journey, for the inter-planetary journey, for making short-cut link with the distant planets and for making different types of calculations of the space and of the universe, even of the different angles of the universe and of different Constellations of stars with the total numbering of the stars, and of the universe liable to be developed.

TOTAL MATTER UNIVERSE (elliptical shape)

The circumference	— 2300 crore light years distance
Plinth area	— 1990 billion square light years distance
Length	— 704 crore light years distance
Breadth	— 360 crore light years distance

We challenge any mathematician of India in any university or in any mathematical society or anyone in the whole globe who can refute or contradict this New Mathematics. We are ready to give any amount of clarification and explanation.
