<https://www.cbsnews.com/amp/news/fast-radio-burst-frb-deep-space-sending-signals-earth-every-16-days/>

As per his Superior science the Man of the East, the Superscientist has already spoken of some creation underneath of the earth, for which now these actions are going on through the Radio Waves for bursting it out as the fire which cannot be quenched.

The coming of the pulses of Radio fumes is from the particular source, the Judgement Nature, from the other end of the universe.

The purpose of the coming of these Radio Pulses from the Judgement Nature is the dissolution of the existing area of the fumes of darkness underneath of the earth and converting it as the area of flames of unquenchable fire as a permanent transformation universally underneath of the earth.

The scientific world should know that the real scientific fact of everything is the Nature and it is the root aspect of Astrophysics, and that the neutral elements is the root aspect for the Matter, when fervent heat is passed vehemently through the neutral elements.

There are **three Natures** as the three pillars of the function of the universe such as *Universal Truth Nature, Universal Judgement Nature and Universal Evil Nature*. The Universal Truth Nature is visibly exposed as the luminous light seen in very distant planets that never can be ceased; again the Universal Judgement Nature is visibly exposed as the flame and then as the fire that never can be quenched; and again the Universal Evil Nature is visibly exposed as the darkness that never can be removed; but only through the shining of light that darkness disappears; but when that shining of the light is withdrawn the darkness is replaced and it covers with more acuteness.

The mysterious actions and the mysterious signs are to be found out and explained only through the mysterious science.

The mysterious science is not the science to test and observe in a test tube in a laboratory, but it is the science learned through the tapping of the universally moving vehement motions of the waves of Universal ideas, Universal ideologies, Universal knowledge and the Constituted knowledge hidden behind the universe.
