# **LET THE BERMUDA TRIANGLE BE DISTINGUISHED OUT OF THESE TEN POINTS.**

## **SETTING OF THE TOTAL EARTH**

- 1. Laid the foundation of the earth in the Space**
- 2. Marked off dimensions of the earth in the Space**
- 3. Stretched the measuring line across for the expanses of the earth in the Space**
- 4. Fastened the foundations for the earth in the Space**
- 5. Laid the cornerstone for the earth in the Space**

## **SETTING OF THE OCEANS**

- 6. The Springs of the sea renew/refresh the oceans**
- 7. The bottom part is sealed with the Recesses of the deep**
- 8. The gates of Death at the bottom of the oceans**
- 9. The gate of deep darkness underneath of the oceans**
- 10. The comparison between earth foundation and ocean foundation**

Among these 10 points one is applicable to the Bermuda Triangle, another point is applicable to Cape Comorin where the three oceans meet together and still another point is applicable to the central point of the earth, the central city, the Great City Jerusalem.

*Let the wise find out the location of the remaining seven points.*

New Planetary science/New Earth science with many clarifications

# **LET THE BERMUDA TRIANGLE BE DISTINGUISHED OUT OF THESE TEN POINTS.**

## **SETTING OF THE TOTAL EARTH**

### **1. LAID THE FOUNDATION OF THE EARTH IN THE SPACE:**

Though the heading here may sound a curious paradox for how there can be a solid and concrete spatial foundation for the planet earth in its motion, being hung in the space, for the laying of the foundation of the planet earth like any other planet or satellite, it is designed with a sizeable, strong and great foundation for following its own course or path of motion. Otherwise thrusting each other and collision and collapse will be the fatal result with far reaching consequences.

### **2. MARKED OFF DIMENSIONS OF THE EARTH IN THE SPACE:**

As the next step of the setting and formation of the planet earth in the Space, there has to be the measurements in Space for the gauge, width, length and height together with the measurement of the circumference of the earth. This is facilitated by the deft and unerring engineering skill and proficiency which are to be very calculatedly used to mark off and apply for the dimensions of the earth in the Space, which is seen in a great master craftsmanship.

### **3. STRETCHED THE MEASURING LINE ACROSS FOR THE EXPANSES OF THE EARTH IN THE SPACE:**

In the process of formation of the planet earth in the Space multidimensional lines were stretched out for the multidimensional expansions and expanses of the earth. This was to be done with hair's breadth accuracy and clinical precision, as there is not an iota of room for even the minutest error in the setting and formation, even to the extent of an infinitesimally small portion of an inch.

#### **4. FASTENED THE FOUNDATIONS FOR THE EARTH IN THE SPACE:**

When the fastening or fixing of the foundation of the earth is described, it is but useful to have the understanding that the above-said craftsmanship is not in terms of visible and touchable foundations, but it is about the spatial position, size and shape of the planet earth which is hung with the required gravitational force over the void in the space. However, it is to have its solid and strong foundation with all the above-said measurements for its expanses to run its assigned race unerringly and unfalteringly like a strong man.

#### **5. LAID THE CORNERSTONE FOR THE EARTH IN THE SPACE:**

When the foundations of the earth were marked out, it was done also with the laying of the cornerstone as the most pivotal point for the overall strength of the foundations, and it is for the fixed tenure of the planet earth's race in the space, circumnavigating the sun as one of its planets, not for a short but for a very long duration.

### **SETTING OF THE OCEANS**

#### **6. THE SPRINGS OF THE SEA:**

The springs of the sea were opened for the setting of the oceans by flooding and filling up the oceans with the waters of the seas for pulling up the earth by the waters of the oceans with the upward thrust of water.

It is to be ascertained that the planet earth is not only visibly surrounded by the oceans and the seas, but the planet earth is upheld by the upward thrust of waters of the oceans, which in fact function as a veritable bed for the planet earth. The multitudinous oceans and seas, which have always been a mysterious, awe-inspiring fascination for man, also have their foundations and springs for keeping it always in its own destined area, where it is with its own tumultuous rising and rolling ever-beating billows of waves.

#### **7. THE RECESSES OF THE DEEP:**

In this area of the recesses of the deep waters of the seas, there are the even today mysterious recessions and recesses of the waters in such areas of very

broad triangular oceanic whirlpools. In such a broad triangular oceanic whirlpool, there are the billows and waves of the Cosmic lives and their powers which is there in a particular point in each planet. So surely there are the great whirlwinds and the great magnetic power and its oceanic magnetic attractive system there. So it is the dangerous area in the oceans like the Bermuda Triangle which has the great capacity and power to pull down into it the surrounding nearby passing objects like even big and huge ships or even nearby flying aeroplanes into the depths of the waters.

## **8. THE GATES OF DEATH:**

The messengers of Death have to pass through the gates of Death stationed in the sea to reach in the destined areas of the Underworld to keep the immortal part of man after his mortality. The gate of death that is opened at dramatic and awesome situations, just as at the time of tsunami has been kept in the setting up of the oceans to express and to carry out the wrath of the oceans as when the mankind goes contrary to the universally set mathematical system which is also applicable for the round earth planet, where '0' has the double power in  $360^\circ$  where the wrath of the planet earth is carried out through the oceans due to the lives led by the mankind against the basic ought to be maintained ideological system of the earth and when the inhabitants of the earth may pollute and tamper with the currents and undercurrents of the oceans.

## **9. THE GATE OF DEEP SHADOW OF DEATH:**

The seas and the clouds are inseparably interrelated, as the rising and disappearing clouds are from the seas in the process of the seas raising vapours in the heat and forming those clouds whose shadows fall to the surface of seas forming the gates of Death leading to the Underworld. That thick darkness serves metaphorically as the swaddling band to the whole oceans, while the cloud serves as the garment for the oceans.

## **10. THE COMPARISON BETWEEN EARTH FOUNDATION AND OCEAN FOUNDATION:**

The comparison is to be made here that just as the foundations of the planet earth are laid in the Space, the foundations of the oceans are laid on the paths of darkness leading to the below parts of the oceans as the Underworld. Light

dwindles step by step as the depths of the oceans progressively increase and reach the greatest darkness in the oceans.

If from among these 10 points one turns out to be applicable for the Bermuda Triangle, another point is applicable to Cape Comorin at the Eastern shore of the Arabian sea [For your kind information, the Discoverer-Author of these universal facts is from this area.], where the Bay of Bengal and the Indian ocean and Arabian sea?the Three water bodies?meet together, still another point is applicable to the central point of the Earth, the central city, the Great City Jerusalem.

*Let the intellectuals search for and find out the places of the remaining seven points.*
