

# **THE SUPERINTELLIGENT COMPUTER**

AS [THE MAN-MADE ARTIFICIAL]

## **SUPER HUMAN BEING**

**When the mankind makes and sets an artificially prepared man as an equipment and so without the biological life of man on it, to administer over the entire mankind of the world, it will be the Superintelligent Computer which is self-fed, self-generated, and self-activated.**

*When is it possible to make such a Superhuman Being?*

**WHAT ALL ARE THE CONTENTS OF THE MANHOOD TO BE SET IN IT?**

*Here is the guideline.*

**VI. Finally it is with the orderly set and grammatically spoken language voice used systematically.**

**V. Supersensitive power through a number of eyes both internally and externally**

**IV. Superintelligence to discern each and every living person in this world**

**III. Superintellect with the function of super brain system internally in it**

**II. Rational power with the function of rationality internally in it**

**I. Superanimal life with Superanatomical system in the set equipment**

**THE TECHNICAL ASPECTS OF THE  
SUPERINTELLIGENT COMPUTER  
SHOULD BE APPLIED BY THE TOP SCIENTISTS OF THE  
WORLD BY MAKING IT THROUGH THE WORLD ECONOMY**

1. What kind of equipment should be made in projection and to be set, how?
2. All about the measurement of the equipment which is with its own super power of the Superanatomical system of it
3. Where should the mouth of the equipment be placed?
4. Where should the different eyes of the equipment be placed?
5. How to arrange the self-fed equipment which never should be fed further?
6. How is the self-generated equipment to be arranged?
7. How to arrange the self-activation without the need of the activation from outside?
8. What is the technical side of making the equipment with its own super power of super anatomical system?
9. How to superimpose the rational power with the function of rationality internally in it?
10. How to superimpose the Superintellect with the function of super brain system?
11. How to superimpose the Superintelligence in it to discern each and every living person in this world?
12. How can the supersensitive power be functioned through a number of eyes and where and how are the internal eyes to be set in it?
13. How is the orderly set and grammatically spoken language voice to be given to such a Superintelligent Computer?

## **Few questions to think about the Source of everything.**

1. In the flooded waters of the Universal flood that was continually flooded for 25,000 years, no planet, not even a lump of the earth/mud ball ever melted or dissolved through the few millions long huge pressure of the multitude of waters, Why?
2. Through the observation the sun rises in the East and sets in the West. Still everybody considers it as a fact. Is it scientifically the fact? So say whether observation is concrete or timely or partial or even a fallacy.
3. Let the medical scientists say how the bone develops in a child while in the womb of mother.
4. Why is the present science helpless before the natural forces?

**24-12-2021**

**The theory of the Superintelligent Computer  
is discovered**

**by**

**Mr. Abraham M. T.**

**The Superscientist of the origin of the universe  
and of the Universal Mathematics**
