

THE NEW PHYSICS TRANSFORMS THE GLOBE FOR A NEW AGE.

Through the Sound Energy when the radical changes happen in the sub-elements of the atom, then the Neutron is accelerated as **the Higher Proton** and then the existing standard of Proton is transformed into another Electron. So now 2 Electrons + Higher Proton = Higher Nuclear Energy *that can globally nullify the existing nuclear power.*

This Higher Nuclear Energy was once used for the Matter creation.

THE THREE MAIN IMMEDIATE CONTRIBUTIONS TO THE WORLD

1. Generating electricity equivalent to the electricity that can be generated from lightning which has never been possible till now
2. Setting the yet-to-be-invented **Superintelligent Computer** as the subsequent greater invention in the globe on the basis of 2 Electrons + Higher Proton as $2E + HP$
3. Nullifying the existing nuclear power globally

Bringing back in the reverse order the earlier order of formation of matter—is the secret of this New Physics.

So when the earlier order of the formation of matter is brought back in the reverse order and when the reverse order reaches back to its final point, there arises the Higher Nuclear Energy [that once worked for the Matter creation] and now it nullifies the present nuclear power.

The newly invented Higher Nuclear Energy

[through the reverse order of setting to the root particles of the universe]

So the New Physics with the new equation

The New Higher Atomic power is based on the formula of
2 Electrons + Higher Proton as $2E + HP$.

Higher Proton

In the reverse order, the Neutron is transformed into
the Higher Proton.

Two Electrons

In the reverse order, the Proton is transformed into another Electron.

So here there are (i) Electron and (ii) Transformed Electron.

V. The atomic particles of Electron, Proton and Neutron

IV. Atom

III. Molecules

II. Elements

The noisy and speedy passing of matter with fervent heat

I. Matter

THE NEWLY INVENTED ‘U’TOM POWER

[from the reverse order to the root particles of the universe]

**When there is the reverse order of dissolution for a set-apart area
of the universe,**

I. The noisy and speedy passing of that set-apart area of the universe with fervent heat ends in elements, molecules, atoms and atomic particles as the steps mentioned previously

II. Further, there are the neutral elements of the universe as the elements of audibility, tangibility, and visibility with cohesive motion of ideas and actions.

- (i) The neutral elements of the universe enter into the cohesive motion of ideas and actions.
- (ii) This cohesive motion is from the positive and negative friction, which is for the setting of the universe and further in the universe.
- (iii) This positive and negative friction is derived from the conflict of good and evil.

**The aspect of transformed negative is with double power by its
swallowing the existing positive aspect in the universe.**

The transformed negative

This is because of the transformation of the positive aspect into the negative aspect. So ultimately there are two negatives in the universe.

The Higher positive

In reaching of the Root particles, the till-now Neutron is transformed into the Higher positive. So there is New Physics with the new equation.

The ‘U’tom power is based on the formula of 2 negatives + Higher positive
[Here the Higher positive is over against the double power of negative.]

Voice Energy in different steps is the direct life of the universe.

[Voice Energy and Matter Energy together are the Space power.]

1. The seven majestic and mighty voices are the controlling life by which the Physical universe of matter is upheld.
2. The nine thundering noises are the internal life of the universe which are indwelling in the Physical universe of matter.
3. The nine Universal-level musical voices are the agents for the process of furnishing and finishing the universe and are further ingrained in the universe.
4. The Universal-level language voice that broods upon the Physical universe of matter is the internal voice life for the language-speaking inhabitants everywhere in the universe.
5. The Sound Energy is the pivotal aspect in/over the atmospheric life. The Sound Energy also works as the superior brooding life in the world of birds and animals and gives them the power of instincts from their birth.

The Sound Energy

The atmospheric life

The life of heat, light, and power (energy)

over zoological lives and botanical lives

***The first and foremost wave is the Timewave and
the first and foremost energy is Sound Energy.***

This New Physics is the only scientific solution to the world.

**This New Physics based on the reverse order
takes us back to the
real creation secrets of the Matter universe.**

How is the Higher Nuclear Energy possible?

The Higher Nuclear Energy is possible by taking the matter back to its reverse order of creation till the point of reaching the sub-elements of the atom, and then with the origination of a radical change in the sub-elements of the atom showing the creation theory of matter.

By taking matter back to its reverse order of creation

through the producing of both Sound Energy (great shout) and fervent heat,

- (i) matter goes back to the elements,
- (ii) those elements go back to the molecules,
- (iii) those molecules go back to the atom, and
- (iv) that atom goes back to the sub-elements of the atom as Electron, Proton and Neutron.

If further the sub-elements of the atom undergo the same process while there are Sound Energy (great shout) and greater fervent heat, then the Neutron is naturally accelerated as the Higher Proton, then the existing Proton is transformed as another Electron, and so there are 2 Electrons. **Against these 2 Electrons, the accelerated Higher Proton stands.**

This is the principle of Higher Nuclear Energy.

2 Electrons + Higher Proton is the Higher Nuclear Energy

i.e., $2E + HP = \text{Higher Nuclear Energy}$.

As per the New Physics, there are mainly three energies:

1. **The Time Energy** that worked for the pre-nuclear stage of the universe
2. **The Voice Energy** that worked for the nuclear stage of the universe
3. **The Higher Nuclear Energy** that worked on the creation of matter (either in its root creation or in its new creation)

The New Physics leads us back to the real creation secrets of the Matter universe. After crossing all the steps of the reverse order of creation, there are naturally happening radical changes in the sub-elements of the atom.
