Higher Nuclear Energy

2E + HP

Introduction

In this crucial situation and at this crucial time, surely, this new invention of Higher Nuclear Energy is very helpful to the mankind of this Last Day. Surely, here is revealed the New Physics, which will very soon transform the globe into a New Age.

The fixed terms of Universal actions

1. The great noise of Sound Energy and
2. The great power of Sound Energy, which result in
3. Making to pass away the shakeable and moveable part of the Matter universe
4. The melting of divided elements with great fervent and intense heat
5. Our earth and the works therein shall be burned up.

The First and Foremost Wave is the Timewave.

&

The First and Foremost Energy is the Sound Energy.

Through the great noise and through the great power of the Sound Energy, there will be dissolution of matter while matter is divided into elements → further into molecules → further into atoms → further into the subelements of atom → and through the transformation of the subelements of atom, such dissolution takes place.

When Sound Energy is produced, the noisy and speedy passing of matter takes place because of the great noise and power of the Sound Energy. As a result of this action, great fervent and intense heat will be produced. **Because of such great fervent and intense heat, the speedy passing of matter, in the reverse order of its creation, will take place there.**

When matter is thus divided, it is transformed into elements, then elements are divided into molecules, and further molecules are divided into atoms, and again, atoms will be divided into the subelements of the atom, that is, into Protons, Electrons, and Neutrons. In contrast to the creation of matter, when the subelements of the atom are divided, a transformation in the subelements of the atom takes place.

Here, the present Proton will be transformed into another Electron. Then, there will be two Electrons. At the same time, the present Neutron will be transformed into Higher Proton.

So here, there are two Electrons and Higher Proton, with the formation of new equation: 2E + HP = Higher Nuclear Energy.

The newly invented Higher Nuclear Energy

[through the reverse order of setting the matter to the root particles of the universe]

So, the New Physics with the new equation

The New Higher Nuclear Energy is based on the formula of
2 Electrons + Higher Proton as 2E + HP.

Higher Proton *(the second change)*

In the reverse order, the present Neutron is transformed into the Higher Proton.

↑

Two Electrons *(the first change)*

In the reverse order, the present Proton is transformed into another Electron. So here, there are (i) Electron and (ii) Transformed Electron.

↑

VI. Changes in the subelements of the atom *(the final changes)*

↑

V. The atomic particles of Electron, Proton, and Neutron

↑

IV. Atoms

↑

III. Molecules

↑

II. Elements

↑

The tremendous action of noisy and speedy passing of matter, in the reverse order, with great fervent heat

↑

I. Matter

THE NEWLY INVENTED HIGHER ATOMIC POWER

[THE REVERSE ORDER OF MATTER TO THE ROOT PARTICLES OF THE UNIVERSE]

(ix) So, New Physics with new equation:

The New Higher Atomic Power based on the formula of

2 Electrons + Higher Proton as 2E + HP

↑

(viii) Higher Proton

In the reverse order, Neutron is transformed into the Higher Proton.

↑

(vii) Transformed Electron

In the reverse order, Proton is transformed into another Electron.

So here, there are 2 Electrons.

↑

(vi) Electrons

↑

(v) Atoms

↑

(iv) Molecules

↑

(iii) Elements

↑

(ii) The noisy and speedy passing of matter with great fervent heat in the reverse order

↑

(i) Matter

THE NEWLY INVENTED 'U'TOM POWER

[THE NEWLY INVENTED UNIVERSAL ATOM POWER]

THE REVERSE ORDER OF MATTER TO THE ROOT PARTICLES OF THE UNIVERSE

So, New Physics with New Equation

The 'U'tom power based on the new equation of
2 Negatives + Higher Positive

↑

Higher Positive

In the reverse order, finally, the neutral is transformed into the Higher Positive.

↑

Transformed Negative

In the reverse order, finally, the positive aspect is transformed into the negative aspect.

So, there are 2 Negatives in the universe.

[In the reverse order, the negative aspect is in double power by its swallowing the normal positive aspect in the universe.]

↑

The noisy and speedy passing of a part of the universe with fervent heat ends in elements, molecules, atoms, atomic particles, and the divided stage of the atomic particles with great transformation to them

↑

The reverse order for a part of the universe

As per the New Physics, there are mainly three energies:

1. **The Time Energy** based on the never-endingly passing on timewaves, which worked for the pre-nuclear stage of the universe till the bursting out of voice
2. **The Voice Energy** that worked for the nuclear stage of the universe till the set stage of Space
3. **The Higher Nuclear Energy** that worked on the creation and setting of matter in the Space, even in the proportionate distance among the stars and planets for their rotation and revolution in their respective orbits

The New Physics leads us back to the real creation secrets of the Matter universe. After crossing all the steps of the reverse order of creation, there are naturally happening radical changes in the subelements of the atom.
